**EA 100
Float Activated
Levelarms**

**EA 101
Probe Activated
Levelarms**

**Prismatic
(Reflex)
Water Gages**

WE STAND BEHIND ALL OUR PRODUCTS...

Safety

When reviewing your particular application, consider the requirement for visual indication or electrical switch points.

Your application may require 4-20 mA signal transmission, a Magnicator or Electro Eye-Hye System may be your solution.

Safe operation requires dependable level indication and control. Clark-Reliance Corporation is your single source for a wide variety of applications.

Conventional time tested drum level equipment offers many options for "Off-The-Drum" applications.

Quality

Clark-Reliance Corporation is ISO 9001 certified to provide you with confidence in design and manufacturing.

All welding is performed by ASME qualified welders.

Reliability

Over 100 years of field experience. Clark-Reliance Corporation (including the Jerguson Level Gage Division), have the largest installed base of these product technologies.

About Your Application

The following will help us to identify your particular application needs.

1. The design pressure of your application.
2. Local viewing of level.
3. Number and location of alarm or critical levels.
4. Vessel connection type and locations.
5. The design temperature.
