Reliance Commemorates 125 Years of Innovation—Celebration Kicks off at POWER-GEN. Get Your Complimentary Ticket Here!

This year is an important milestone as we celebrate our 125th anniversary! Clark-Reliance® was founded in 1884 as the Reliance Gauge Column Company. It all began with what would be our first breakthrough product: a low water alarm for boiler operators. Using floats attached to a steam whistle, this revolutionary device would sound an alarm when water conditions

became unsafe. Reliance Gauge was also the first company to offer remote water gauges. We have come a long way over the years. Today, Clark-Reliance is dedicated to supplying the largest and broadest product line in the instrumentation industry for all types of measurement and control. Key acquisitions over the last few decades have solidified Clark-Reliance as a leader in the separation and filtration industries as well.

We are proud of our longevity and success, and we would like you to celebrate with us. Please join us at [POWER-GEN International 2009](#), where we will kick off our anniversary celebration. To honor our anniversary, we are offering complimentary POWER-GEN tickets. [CLICK HERE FOR DETAILS.](#)

The show takes place December 8-10, 2009 in Las Vegas. At POWER-GEN booth C1-317, we will display some of our many state-of-the-art products for the power generation industry. We hope to see you there!

Clark-Reliance Honors Employees with 20 Years or More of Service

Clark-Reliance recently held its 18th Annual Service Awards to acknowledge employees who have been with the company for 20 years or longer. Those recognized received special plaques. "We have more than 40 employees with 20 years or more of service," said Chris Fadden, Marketing Manager. "This fact is a testament to our commitment to maintaining a positive and rewarding workplace." He added, "Congratulations to all of those employees honored for their long service and dedication."
